POWERED ACCESS HIRE, SALES & TRAINING

# STAR TRAINING

## Solutions

Ensuring course availability when you need it, no matter how many delegates.

## Expertise

High-quality industry-specific trainers ready to get results.

## Flexibility

Training delivered at your site or ours, you decide.

## IPAF promotes the safe and effective use of powered access equipment worldwide.

The International Powered Access Federation (IPAF) training programme is globally recognised, developed by leading industry professionals and available in multiple languages across a worldwide network of more than 750 IPAF-approved training centres.

IPAF training courses help you keep your employees safe and you stay legal.

ePAL Cards are given as standard but physical cards are available at an extra cost.

# STAR TRAINING

## Introduction

**Safety is of paramount importance for all owners and operators of powered access equipment. Star Platforms offer a range of training courses accredited by the International Powered Access Federation (IPAF) covering areas including the selection, management and operation of MEWPs (Mobile Elevated Work Platforms).**

### MEWP Operator Training

MEWP Operator Training is the most popular type of IPAF training, as it equips you with all the skills and knowledge you would need to safely operate the most commonly used forms of mobile elevating work platforms.

Depending on the training course, you will be taught how to safely prepare and operate a variety of different category MEWPs including:

- **Static Vertical (1a)** – For example, van mounted scissor lifts
- **Static Boom (1b)** – Vehicle/truck mounted boom or trailer mounted booms etc.
- **Mobile Vertical (3a)** – Mobile scissor lifts
- **Mobile Boom (3b)** – ‘Cherry-pickers’
- **Push Around Vertical (PAV)** – Pecolift, Ecolift, Powertower, etc.

### MEWPs for Managers

**Any manager who works in an environment where mobile elevating work platforms are regularly used should undertake an IPAF MEWPs for Managers course.**

These courses will familiarise you with your legal responsibilities around MEWPs and how to effectively supervise others when they are using them. This training will make you aware of the work your team is doing, and how to oversee it. It will also show you how to use a MEWP yourself.

Unlike the operator course, MEWPs for Managers covers how to plan a job that requires the use of MEWPs, how to conduct a risk assessment, and how to select the correct equipment for specific tasks.

PAV  Push Around Vertical

IAD  Insulated Aerial Device

# COURSES

## IPAF Operator Training | 1b, 3a, 3b available

Introduction	Who should attend	Learning outcome	Duration
<p>The IPAF operator course instructs a candidate to prepare and safely operate various types of MEWPs, also referred to as cherry pickers, aerial lifts or scissor lifts.</p> <p>Categories include Static Boom (1b), Mobile Vertical (3a), Mobile Boom (3b), Push Around Vehicle (PAV), and Insulated Aerial Device (IAD).</p>	Operators of Mobile Elevated Work Platforms (MEWPs).	<p>This IPAF accredited course instructs an operator on preparing and safely operating Mobile Vertical lifts (Scissor Lifts) and Mobile Booms (Cherry Pickers). Successful trainees receive a PAL (Powered Access Licence), a safety guide, a logbook and a certificate accessible via IPAF ePAL (a digital app that stores and shares your IPAF powered access licences and qualifications). The ePAL Card is issued by IPAF (the International Powered Access Federation) and is valid for 5 years.</p>	<p><b>Half day</b></p> <p>eLearning in your own time with a half day practical session at one of our depots.</p> <p><i>or</i></p> <p><b>Full day</b></p> <p>Classroom theory in the morning.</p> <p>Practical session in the afternoon.</p>

## IPAF Operator Training | Push Around Vertical (PAV)

Introduction	Who should attend	Learning outcome	Duration
<p>We often get asked if training and licence are needed to operate a Push Around Vehicle; the answer is yes!</p> <p>This single category course instructs candidates on how to operate a push around vehicle (PAV) safely.</p>	Operators of push around vehicles (PAV).	<p>This IPAF accredited course instructs an operator on how to prepare and safely operate a Push Around Vehicle (PAV)</p> <p>Successful trainees receive a PAL Card (Powered Access Licence), a safety guide, a logbook and a certificate. The PAL Card is issued by IPAF (the International Powered Access Federation) and is valid for 5 years.</p>	<p><b>Half day</b></p> <p>Theory and practical session at one of our depots.</p>

## IPAF MEWPs for Managers | MM

Introduction	Who should attend	Learning outcome	Duration
<p>Companies that use MEWPs need to know what their management and legal responsibilities are and how to ensure the most effective use of MEWPs.</p> <p>This course covers what managers need to know for safe and effective use of MEWPs on site, including planning the job, conducting a risk assessment, selecting the right equipment for optimum cost-efficiency and mitigating all possible risks.</p>	<p>Employers, project managers, foremen and supervisors working in a broad range of industries such as construction, facilities management, retail, airports and arboriculture.</p> <p>Anyone who is responsible for planning and overseeing the use of MEWPs on their job site.</p>	<p>This course is about planning, supervising and managing the use of MEWPs, and not about operating equipment.</p> <p>It ends with a written test that candidates must pass. Upon successful completion of the theory test, candidates will receive an IPAF certificate.</p> <p>Those who hold a valid Powered Access Licence for operating equipment can have the MEWPs for Managers (MM) category added to their PAL card.</p>	<p><b>Virtual –</b></p> <p>eLearning only.</p>

## IPAF MEWP Harness Use and Inspection

Introduction	Who should attend	Learning outcome	Duration
<p>A harness is there to protect you in the event of an accident. This course will ensure your harness is fit for purpose and safe.</p>	Operator of Mobile Elevated Work Platforms (MEWPs).	<p>This course will show delegates how to fit and correctly adjust a full body harness, and how to carry out and correctly document a pre-use inspection.</p>	<p><b>Half day</b> classroom based training.</p>

## IPAF Competent Assessed Persons | CAP

Introduction	Who should attend	Learning outcome	Duration
<p>Known as the gold standard for IPAF engineers, CAP stands for 'competent assessed person'.</p> <p>The CAP programme is an advanced level of assessment leading to certification that engineers are proficient in undertaking statutory inspections of MEWPs, MCWPs or Construction Hoists (CHs) to the highest specification, as stipulated by legislation/regulations.</p>	Experienced powered access engineers.	<p>How to competently plan, manage and conduct a thorough examination of a MEWP, MCWP or Construction Hoist in line with LOLER, Work at Height Regulations and PUWER 98 legislation.</p>	<p><b>Full day</b> classroom based training.</p>
